Jerusalem in the eyes of the Islamic and foreigner travelers in the fifth and sixth AD Centuries

Jerusalem has a great share of the description, the studying, the analyzing and the commenting of the travelers because of its historical and religious importance to all people whether they are Muslims or Christians. In fact, what moves the travelers to visit Jerusalem not only its position as an ascension of Mohammed (PBUH), the center of religions and the birthplace of Jesus, but because Allah have scared this place. It is blessed since the beginning of the creation, also because it is connected to the Sacred House in Mecca.
